

# ECAC Student Pilot Limitations.

Student pilots at East Coast Aero Club are permitted to fly solo with the appropriate endorsements entered into their log books.

As part of your endorsements for solo flight, the following limitations are placed upon the student pilot whenever flying solo.

## **ECAC Wind Limitations for all student pilots are:**

1. **Maximum wind** of **17 Kts**
2. **Max cross wind** of **7 Kts**
3. **Max-Gusts** not to exceed 5Kts

## **ECAC Ceilings and Visibilities**

1. **Flying in the traffic pattern: 1,600' AGL** ceiling and **P6SM or greater** visibility
2. **Local practice area: 3,500' AGL** ceiling and **P6SM or greater** visibility
3. **Cross-country: 4,000' AGL** ceiling and **P6SM** or greater visibility at origin, along entire route of flight and at destination

Note: Instructors may limit their students to lower winds and higher ceilings and visibility for students.

If you wish for your limitation to be altered you must have your instructor agree to this and have the instructor enter these adjusted limitations in your logbook and have your instructor inform the ECAC office / dispatchers to enter them in the your student information file.
